

MOHD ALI

Data Analyst • Business Analyst • Data Analytics Intern

mohdali890mh@gmail.com | +91 8887123225 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student with a strong foundation in Data Analytics, Business Analytics, and data-driven problem solving. Currently undergoing a Data Analytics Internship and Training at Softpro India, gaining hands-on experience in Python, SQL, Excel, Pandas, NumPy, Power BI, Tableau, and Exploratory Data Analysis (EDA). Built end-to-end analytics projects including customer churn prediction, job market analysis, SQL-based analytics, and interactive business dashboards. Skilled in data cleaning, visualization, statistical analysis, dashboard development, and leveraging modern AI tools and Large Language Models (LLMs) to accelerate data analysis, automate workflows, enhance productivity, and support intelligent business decision-making. Passionate about transforming complex data into actionable insights and building scalable, AI-assisted analytics solutions that create measurable business value.

TECHNICAL SKILLS

Languages: Python, SQL

Data Analysis & Analytics: Data Cleaning | Data Preprocessing | Data Wrangling | Exploratory Data Analysis (EDA) | Data Visualization | Statistical Analysis | Business Analytics | Feature Engineering

Python Frameworks & Libraries: Pandas | NumPy | Matplotlib | Seaborn | Scikit-learn | BeautifulSoup | Streamlit | FastAPI

Business Intelligence & Visualization: Microsoft Excel (Advanced) | Power BI | Tableau

AI & LLM Tools: ChatGPT | Google Gemini | OpenAI API | Gemini API | Prompt Engineering | AI-assisted Data Analysis

Databases: MySQL | PostgreSQL | SQLite | SQLAlchemy

Tools & Platforms: Git | GitHub | VS Code | Jupyter Notebook

Core Concepts: Dashboard Development | KPI Reporting | Data Storytelling | REST APIs | Machine Learning Fundamentals | Business Reporting

EXPERIENCE

Softpro India Computer Technologies Pvt. Ltd. | Data Analytics Intern | June 2026 - Present

- Contributing to Data Analytics and Business Analytics projects through a structured industry internship.
- Analyzing and transforming data using **Python, SQL, Excel, Pandas, and NumPy**.
- Creating interactive dashboards and business reports using **Power BI** and **Tableau**.
- Performing **EDA, statistical analysis, and machine learning** to generate actionable insights.
- Leveraging **AI tools and LLMs** to automate workflows and improve analytical productivity.
- Collaborating with mentors to develop end-to-end analytics solutions following industry best practices.
- Delivering actionable insights through data analysis to support informed business decision-making.

PROJECTS

Telecom Customer Churn Prediction | Machine Learning • Data Analytics

May 2026

GitHub: <https://github.com/Alimohd88/telecom-churn-prediction>

Tech Stack: Python | SQL | Pandas | NumPy | Scikit-learn | Matplotlib | Seaborn | Streamlit | FastAPI

- Developed an end-to-end **Telecom Customer Churn Prediction** solution to identify customers at risk of churn using machine learning techniques.
- Performed **data cleaning, preprocessing, feature engineering, and exploratory data analysis (EDA)** using Pandas and NumPy.
- Built and evaluated **Logistic Regression** and classification models using Accuracy, Precision, Recall, F1-Score, and ROC-AUC metrics.
- Developed an interactive **Streamlit dashboard** integrated with a **FastAPI** backend for real-time churn prediction and business reporting.

- Identified key churn drivers including **contract type, tenure, monthly charges, and internet services** to support customer retention strategies.

Data Analytics Job Market Analysis | Python • Data Analytics • Business Analytics

Feb 2026

GitHub: <https://github.com/Alimohd88/Data-Analytics-Job-Market-Analysis>

Tech Stack: Python | BeautifulSoup | Pandas | NumPy | Matplotlib | Seaborn | Excel

- Developed a Python-based analytics pipeline to collect and analyze **Data Analytics job market** trends from online job portals.
- Extracted, cleaned, and transformed job postings using **BeautifulSoup, Pandas, and NumPy** for structured analysis.
- Performed **Exploratory Data Analysis (EDA)** to identify trends in required skills, salaries, locations, and hiring demand.
- Created insightful visualizations using **Matplotlib** and **Seaborn** to communicate hiring patterns and business insights.
- Generated data-driven recommendations by identifying **high-demand technologies, skill gaps, and emerging job market trends**.

Data Professional Survey Dashboard | Power BI • Data Analytics • Business Intelligence

Jun 2026

GitHub: <https://github.com/Alimohd88/Data-Professional-Survey-PowerBI>

Tech Stack: Power BI | Power Query | DAX | Data Modeling | Excel

- Developed an **interactive Power BI dashboard** to analyze responses from a **Data Professional Survey** and uncover workforce trends.
- Performed **data cleaning, transformation, and preprocessing** using **Power Query** to prepare raw survey data for analysis.
- Created **interactive visualizations** including salary distribution, job roles, programming languages, work-life balance, and job satisfaction metrics.
- Designed **dynamic dashboards** using **DAX measures, KPIs, slicers, and filters** for interactive business reporting.
- Identified key insights such as **average salaries, preferred programming languages, career satisfaction, and industry trends** to support data-driven decision making.

CERTIFICATIONS

- **Deloitte Australia – Data Analytics Job Simulation Forage** — Deloitte, Feb 2026
- **Certification Of Completion of Google Data Analytics Professional Certificate**— Google, Oct 2025
- **Certification Of Participation in ML workshop**— Softpro, Nov 2025

EDUCATION

- **B.Tech — Computer Science & Design [75.60%]** — R.R. Institute of Modern Technology, AKTU (2023–2027)
- **Intermediate (C.B.S.E) [75%]** — Tender Hearts School (2022-2023)
- **High School (C.B.S.E) [88%]** — Tender Hearts School (2020-2021)
